

MS in Building Construction Track Selection Form

Name: _____

ID #: _____

Email: _____

V 1.01

12/6/2018

I select the **Industry Track** for my MS in Building Construction Plan of Study

I understand that **by selecting the Industry Track**, my advisory committee will be the Industry Track Advisory Committee (ITAC) and I will be required to meet with them each semester to provide updates on my progress toward the degree. My exit option will be a final oral exam administered by the Industry Track Advisory Committee. In addition to meeting core course requirements, I will be required to take CNST 5124: Construction Company Management and one approved business elective in addition to my other selected elective courses

Initials

I understand that I must provide all required documentation by the specified deadline each semester in order to schedule my meeting with the Industry Track Advisory Committee. Failure to submit required documentation or schedule/attend a meeting with the committee may delay completion of my degree.

Initials

I select the **Research Track** for my MS in Building Construction Plan of Study

I understand that by selecting the Research Track, my advisory committee will be recruited by me to support my specific research topic and the methods I will need to use to complete my study. I will be required to prepare and defend a proposal describing my research before my selected committee, who will indicate their commitment to serve in this capacity with their signatures on my plan of study. I must also conduct the research, prepare a written document describing my work to the satisfaction of my committee, and publicly defend my work before my committee in a final oral defense. In addition to meeting core and elective course requirements, I will be required to take CNST 5084: Methods in Construction Research or an acceptable equivalent approved by my committee, as well as CNST 5944: Construction Research Presentation in my final semester.

Initials

I understand that it is my responsibility to recruit my advisory committee based on my interests and to obtain their approval of my work through regular meetings at a frequency determined in consultation with my advisor/committee chair.
